Invites all Auckland Dentists & Technicians to the  
**AUCKLAND STUDY GROUP MEETING**  
**Tuesday 20 November 2018 at 7.30pm**

Dr Marshall Hanson is a member of the New Zealand Academy of Cosmetic Dentistry and an Accredited Fellow Member of the American Academy of Cosmetic Dentistry.

His clinical work has been published in various peer reviewed journals, nationally and internationally, with a focus on new technologies and responsible aesthetics.

He graduated with Honours from the University of the Pacific Arthur A. Dugoni School of Dentistry (UOP) in 2007, and currently works at Villa Dental in Hamilton, New Zealand.

**PRESENTER:**

**DR MARSHALL HANSON DDS, FAACD**

**TOPIC:**

**A focus on more minimally-invasive procedures with fewer surgeries to achieve bone and soft-tissue enhancement in the aesthetic zone**

When it concerns bone and soft-tissue enhancements, preservation techniques, fewer surgeries, and less invasive treatment options improve the vascularity of the surgical site, decrease morbidity, and receive higher patient acceptance. Becoming more aware of and adept at these type of contemporary treatment options will not only be a service to our patients but can increase the predictability and success of our efforts to achieve desirable outcomes in the aesthetic zone.

Participants will be exposed to a variety of minimally-invasive surgical procedures and techniques to enhance bone and soft-tissue in the aesthetic zone. Topics will include:

- Partial-Extraction Therapy for ridge preservation and/or immediate implant placement.
- Tissue-form preservation with chair-side custom healing abutments for immediate implants.
- Dual-zone grafting for soft tissue preservation around immediate implants.
- Incision-line-free Osseous crown lengthening.
- Utilising platelet-rich fibrin to reengineer tissue and treat recession.
- Palatal-release for scar-free connective tissue grafting.
- Bone cement, as an alternative bone graft material.

**2 HOURS VERIFIABLE CPD CREDITS**

NZDA verifies, that based on the information provided to NZDA, this activity meets the Dental Council policy requirements for CPD.

NZDA CPD verification does not imply promotion or endorsement of the contents of any course. Attendees need to use professional judgment to assess the validity and usefulness of techniques, materials or therapeutic products to their own practice.
