Invites all Auckland Dentists & Technicians to the
AUCKLAND STUDY GROUP MEETING
Tuesday 23rd February 2021 at 7pm

PRESENTER:
MAURITZ SLABBERT

TOPIC:
Digital Diversity: Aesthetic and Functional Applications
for Immediate and Conventional Dentures

Lecture Synopsis

Mauritz Slabbert is the owner of Procast Dental Laboratory in Silverdale, Auckland. He qualified as a Dental Technician at the Cape Peninsula University of Technology in 1994. Mauritz started his career in Cape Town and has been practising as a Dental Technician for the past 26 years. After migrating to New Zealand in the late nineties he completed the New Zealand Dental Technology Registration Examination at the University of Otago. Mauritz established his laboratory in 2005 focusing on implant restorations and removable prosthodontics. The Digital journey started in 1998 with scanning and designing Procera restorations and has continued with incorporating the latest in digital technology in his laboratory. The latest technology to join the team are the Pm7 Milling machine, 3shape E3 scanner and Asiga Max printer. He is a lecturer and presenter on Digital Design of Removable Prosthodontics and is actively involved with implant study groups. When not at work Mauritz is a keen kite surfer and enters crazy running events like the 100km Tarawera ultra marathon.

Digital technology for removable prosthodontics has been neglected for years, but not anymore. Significant technological progress has been made towards creating a digital platform for removable prosthodontics that are of a very high standard, accurate and predictable.

This presentation will cover all aspects of digital removable prosthodontics and how it can improve the efficiency of your practice and communications with your laboratory. Unlocking the potential of the design software is one way of providing more options for your practice. Production and design videos of every step in the manufacturing process will be shown. Samples of milled and printed appliances will be available to view.

All attendees must rsvp (for catering purposes) by Tuesday 16th February 2021 to admin@nzacd.co.nz or telephone 09 358 4647
No refund will be made for cancellations received less than 7 working days of the event. No refunds for "no-shows"

2 HOURS VERIFIABLE CPD CREDITS

NZDA verifies, that based on the information provided to NZDA, this activity meets the Dental Council policy requirements for CPD. NZDA CPD verification does not imply promotion or endorsement of the contents of any course. Attendees need to use professional judgment to assess the validity and usefulness of techniques, materials or therapeutic products to their own practice.
