In 2004 Shinichiro graduated from dental technical school in Kyoto, Japan, and registered as a dental technician.

He completed his post graduate course in 2005,

and worked at a dental laboratory in Japan until 2007.

Shin immigrated to New Zealand in 2007 and began working at the Newmarket Dental Studio. He is registered as a dental technician in New Zealand.

Shin is the master ceramist behind the case which achieved the Ivoclar e-max Smile Award 2016 Top 10 ranking completed together with Clarence Tam.

He gets his inspiration from music and movies, enjoys playing soccer and goes camping with his family and friends during the summer months.

PRESENTER: Shinichiro Tsuji RDT

TOPIC:

How to Achieve Optimal Aesthetics
Using Modern All-Ceramic Restorative Options

This lecture will focus on useful techniques to achieve predictable results in daily restorative workflows whilst discussing the latest all ceramic material options and their ideal respective modes of application. Implant restorations will also be discussed. The ability to layer ceramics in different ways is the key to highly aesthetic results. Knowledge of materials including all ceramic framework selection is critical in determining the final aesthetic outcome.

COURSE OBJECTIVES:

The Attendee will learn the

- elements of dental morphology
- importance of stump shade recording and use of natural die material
- digital design component review: the simple case vs the complex case
- material selection for different situations
- ceramic layering specific to zirconium oxide restorations including implants.

All attendees please RSVP (as limited seating) to
