

Invites all Auckland Dentists & Technicians to the  
**AUCKLAND STUDY GROUP MEETING**

**Tuesday 19<sup>th</sup> July 2022 at 7.00pm**

**Mr Steve  
Shepherd**

Steve completed his BSc (Hons) in Biochemistry in 1984 from Otago and received a scholarship from Gene Stock NZ to study a PhD (in-completed) in Immunobiology Dept under Prof James Watson. In 1989 Steve moved to the UK to work initially with Septodont, developing training in Dental Anaesthesia in Endodontics. Much of this time was devoted to developing skills-based training in Endodontics. Developing courses with Key Endodontists (With Analytic Company – original developer of the EPT) in the UK and Europe as well as development of Endodontic Surgical DVD training courses. Attending many major Endodontic meetings around the world for the past 20 years and working with many major Universities and Research institutions developing research into Endo File development and root canal sealers. Having setup Endo training in most of Asia for the past 15 years and working with some of the great researchers around the world – Steve has some interesting perspectives on what the endodontics 'success' looks like.

**2 HOURS VERIFIABLE CPD CREDITS**

NZDA verifies, that based on the information provided to NZDA, this activity meets the Dental Council policy requirements for CPD.

Due to recent New Zealand Government policy announcements, New Zealand has entered the COVID-19 Protection Framework system (otherwise known as the traffic light system), we will be requiring all guests aged 12 and over to produce their vaccine pass at all NZACD events.

**NZACD Members complimentary**

**Non-Members - \$75** including gst discounted to **\$55** if payment received prior to lecture date.

**PRESENTER:**

**MR STEVE SHEPHERD**

**TOPIC:**

**VITAL PULP THERAPY – PART 2  
FOUR CLINICAL CASES AND PROGNOSTIC  
FACTORS THAT DETERMINE SUCCESS**

**Synopsis:**

Considering the high prevalence of deep caries lesions the treatment of exposed pulps can be assumed to be daily routine for most practitioners. Thus, in case of exposure of the pulp, dentists are faced with the decision to either perform direct pulp capping (DPC), partial pulpotomy, full pulpotomy or to immediately initiate root-canal treatment (RCT). The prognosis for these procedures will be discussed along with the long term viability – as well as how this can fit into the general dental practice in New Zealand.

**Learning Outcome:**

- Understand case selection criterion
- Prognostic factors determining success
- Where to stop the pulp amputation
- Placing materials – Lid technique

All attendees must rsvp (for catering purposes) by Tuesday 12<sup>th</sup> July 2022 to [admin@nzacd.co.nz](mailto:admin@nzacd.co.nz) or telephone 09 358 4647

No refund will be made for cancellations received less than 7 working days of the event. No refunds for "no-shows"

The Auckland address to attend the Study Group is

**NZDA House**

Building 1, 195 Main Highway  
Ellerslie, Auckland

Registrations & Refreshments from 6.30pm  
Lecture 7pm

**Non-Members Fee Payment: \$75 (including GST) – discounted to \$55 if paid prior to lecture date.**

Send to: Administrator - NZACD - PO Box 159, Helensville, Auckland 0840 or email: [admin@nzacd.co.nz](mailto:admin@nzacd.co.nz)

**Bank Account - Westpac 031509 0102872 00**
