Inviting all Dunedin Dentists & Technicians to the
DUNEDIN STUDY GROUP MEETING
Friday 29th November 2019 at 6.30pm

Christian studied dentistry at the University of Germany, graduating in 1997. Post graduate study followed and he

now also holds a Doctorate in Prosthodontics. After working in private practice, Christian immigrated to New Zealand in 2001 working as an associate dentist until forming Manly Dental Care in 2002. He later joined with Lumino and recently merged with the team at the Orewa Lumino branch. Christian has recently joined the university of Otago in the capacity of a PPF working with the oral surgery team as well as teaching students in oral rehab. Christian's passion in Implants has led to extensive post graduate training in this field with the completion of his Masters of Oral Implantology at the University of Frankfurt. The University has also invited Christian to join the Alumni at the department of Oral Implantology.

With his study and implant treatments, Christian has gained extensive experience and enjoys the challenge that each individual case present to create the smile his patients aspire to achieve.

PRESENTER:

DR CHRISTIAN BLASCHKE

TOPIC: Socket Shield technique – a Facebook evidence-based approach to implantology

As dental implants are increasingly used in the cosmetically challenging situations, crestal bone changes are of increasing concern. A multitude of treatment concepts have been presented to manage such changes. A recently suggested treatment modality is the Huerzeler shield / socket shield. This is particularly true when observing social media. However, is there enough or any evidence base to apply this technique in private practice?

Learning Outcomes:

This lecture will focus on understanding the physiological changes after tooth extraction and techniques suitable to achieve predictable cosmetic outcomes of implant treatments in the aesthetic zone

2 HOURS VERIFIABLE CPD CREDITS

NZDA verifies, that based on the information provided to NZDA, this activity meets the Dental Council policy requirements for CPD.

NZDA CPD verification does not imply promotion or endorsement of the contents of any course. Attendees need to use professional judgment to assess the validity and usefulness of techniques, materials or therapeutic products to their own practice.
