

Invites all Christchurch Dentists & Technicians to the
CHRISTCHURCH STUDY GROUP MEETING

Friday 9th September 2022 at 6.30pm

ivoclar

**Mr Mauritz
Slabbert**

Mauritz Slabbert is the owner of Procast Dental Laboratory in Silverdale, Auckland. He qualified as a Dental Technician at the Cape Peninsula University of Technology in 1994. Mauritz started his career in Cape Town and has been practising as a Dental Technician for the past 26 years. After migrating to New Zealand in the late nineties he completed the New Zealand Dental Technology Registration Examination at the University of Otago.

Mauritz established his laboratory in 2005 focusing on implant restorations and removable prosthodontics. The Digital journey started in 1998 with scanning and designing Procera restorations and has continued with incorporating the latest in digital technology in his laboratory. The latest technology to join the team are the PM7 Milling machine, 3Shape E3 scanner and Asiga Max printer.

He is a lecturer and presenter on Digital Design of Removable Prosthodontics and is actively involved with implant study groups.

When not at work Mauritz is a keen kite surfer and enters crazy running events like the 100km Tarawera ultra marathon.

2 HOURS VERIFIABLE CPD CREDITS

NZDA verifies, that based on the information provided to NZDA, this activity meets the Dental Council policy requirements for CPD.

Due to recent New Zealand Government policy announcements, we would like to advise you that once New Zealand enters the COVID-19 Protection Framework system (otherwise known as the traffic light system) we will be requiring all guests aged 12 and over to produce their vaccine pass at all NZACD events.

NZACD Members complimentary

Non-Members - \$75 including gst
discounted to **\$55** if payment received
prior to lecture date.

PRESENTER:

MR MAURITZ SLABBERT

TOPIC:

Digital Diversity: Unlocking the potential for your dental practice

Synopsis:

Significant technological progress has been made towards creating a digital platform for removable and fixed prosthodontics that are of a very high standard, accurate and predictable. This presentation will cover all aspects of digital prosthodontics and how it can improve the efficiency of your practice and communications with your laboratory. Unlocking the potential of the design software is one way of providing more options for your practice.

Learning Outcomes

1. Temporisation made easy, fixed and removable digital designs.
2. Implant digital solutions for fixed and removable restorations.
3. Immediate and conventional denture design and manufacture in the digital age.
4. Production and design videos of every step in the manufacturing process will be shown.
5. Interactive simplification of when things go wrong - let's learn more together.
6. Samples of milled and printed appliances will be available to view.

All attendees must rsvp (for catering purposes) by Friday 2nd September 2022 to admin@nzacd.co.nz or telephone 09 358 4647
No refund will be made for cancellations received less than 7 working days of the event. No refunds for "no-shows"
