Invites all Auckland Dentists & Technicians to the
AUCKLAND STUDY GROUP MEETING

Tuesday 10th May 2022 at 7.00pm

**Mr Steve
Shepherd**

Steve completed his BSc (Hons) in Biochemistry in 1984 from Otago and received a scholarship from Gene Stock NZ to study a PhD (in-completed) in Immunobiology Dept under Prof James Watson. In 1989 Steve moved to the UK to work initially with Septodont, developing training in Dental Anaesthesia in Endodontics. Much of this time was devoted to developing skills-based training in Endodontics. Developing courses with Key Endodontists (With Analytic Company – original developer of the EPT) in the UK and Europe as well as development of Endodontic Surgical DVD training courses. Attending many major Endodontic meetings around the world for the past 20 years and working with many major Universities and Research institutions developing research into Endo File development and root canal sealers. Having setup Endo training in most of Asia for the past 15 years and working with some of the great researchers around the world – Steve has some interesting perspectives on what the endodontics 'success' looks like.

2 HOURS VERIFIABLE CPD CREDITS

NZDA verifies, that based on the information provided to NZDA, this activity meets the Dental Council policy requirements for CPD.

Due to recent New Zealand Government policy announcements, New Zealand has entered the COVID-19 Protection Framework system (otherwise known as the traffic light system), we will be requiring all guests aged 12 and over to produce their vaccine pass at all NZACD events.

NZACD Members complimentary

Non-Members - \$75 including gst
discounted to **\$55** if payment received
prior to lecture date.

PRESENTER:

MR STEVE SHEPHERD

TOPIC:

VITAL PULP THERAPY

**PULP CAPPING: CONSERVING THE DENTAL PULP –
CAN IT BE DONE? IS IT WORTH IT?**

Synopsis:

1. Regenerative procedures should be considered the first line of management.
2. Vital pulp therapy using Calcium Silicate, Materials is highly successful Clinically and Radiographically in inflamed permanent teeth with carious exposure and in dental Trauma.
3. Vital pulp therapy following the guidelines proposed has the potential to improve the outcome of the conservative treatment of mature teeth with deep caries and in some occasions may be an alternative to [pulpectomy](#).
4. The choice of conservative vital pulp therapy or root canal treatment for deeply carious teeth remains a matter of clinical judgment (14). To refine that judgment, I will present the reliability of common clinical findings in diagnosing the present health status of the dental pulp. The methods for the diagnosis of pulp conditions are still very limited in terms of accuracy - the clinician has to collect data from subjective examination (chief complaint and dental history), visual inspection, radiographic examination, and response to stimuli application (pulp tests) and then infer the possible diagnosis.

Learning Outcome:

1. Success of Pulp Capping, Partial Pulpotomy and Full Pulpotomy
2. Refining Diagnostic skills
3. Understand the requirement for NaOCl in Hemostasis
4. Properties of Biosilicates that make them uniquely suitable for the Pulp-Interface

All attendees must rsvp (for catering purposes) by Tuesday 3rd May 2022 to admin@nzacd.co.nz or telephone 09 358 4647

No refund will be made for cancellations received less than 7 working days of the event. No refunds for "no-shows"

The Auckland address to attend the Study Group is

NZDA House

Building 1, 195 Main Highway
Ellerslie, Auckland

Registrations & Refreshments from 6.30pm
Lecture 7pm

Non-Members Fee Payment: \$75 (including GST) – discounted to \$55 if paid prior to lecture date.

Send to: Administrator - NZACD - PO Box 159, Helensville, Auckland 0840 or email: admin@nzacd.co.nz

Bank Account - Westpac 031509 0102872 00

I would like to attend the Auckland Study Group Meeting on Tuesday 10th May 2022 at NZDA House
