Invites all Wellington Dentists & Technicians to the
WELLINGTON STUDY GROUP MEETING
Friday 18th September 2020 at 7.30pm

Dr Jacob Grieve

Jacob Grieve has practiced at Knox Dental for 15 years, as a General Dentist. He qualified in 2002 from Otago, BDS

with distinction. In 2008 Jacob was admitted as a fellow of the RACDS by examination, General Stream with subcategory of Restorative and Periodontology. Jacob has tutored in the Otago University undergraduate clinics for 8 years, and now gives guest lectures periodically. He is the immediate past president for the Otago Branch of the NZDA, as well as the coordinator for the Dunedin Graduate Professional Development Program.

He hosts a Podcast on New Zealand Dentistry.

2 HOURS VERIFIABLE CPD CREDITS

NZDA verifies, that based on the information provided to NZDA, this activity meets the Dental Council policy requirements for CPD.

NZDA CPD verification does not imply promotion or endorsement of the contents of any course. Attendees need to use professional judgment to assess the validity and usefulness of techniques, materials or therapeutic products to their own practice.

NZACD Members complimentary

Non-Members - \$75 including gst
discounted to **\$55** if payment received
prior to lecture date.

PRESENTER:

DR JACOB GRIEVE

TOPIC:

Caries Management for the Real-World Dentist: How to land evidenced-based care in the Dr Google age.

When do I intervene operatively for an early stage lesion?
Do I need to sign up for a 'caries treatment program' to effectively treat caries?
Can I help someone who isn't brushing properly?
My patient has good oral hygiene but still gets new lesions, why?

Jacob will bring a timely update, aimed at wet-fingered dentists wanting to refine their management of this common situation. Preventative interventions have become much more refined, as we now have decades of quality data to draw upon. We can now confidently address dental caries using the combined hats of the physician and surgeon. This course will cover the key interventions, rational behind their use, and how-to tailor to a patient with differing motivational levels.

Preventative treatment can be undervalued by private patients and payors alike. I will explain how to apply this therapy in an ethical and profitable, New Zealand context.

Attendees will learn the latest on:

- Diagnosis (including Diagnocam device)
- Classification
- Intervention (Caries disclosing dye pros and cons)
- Prevention utilizing the principals of Caries Management By Risk Assessment (CAMBRA)
- NZ economics, with AOHS and private clients

All attendees must rsvp (for catering purposes) by Friday 11th September 2020 to admin@nzacd.co.nz or telephone 09 358 4647
No refund will be made for cancellations received less than 7 working days of the event. No refunds for "no-shows"

The Wellington address to attend the Study Group is

University of Otago Wellington
Wellington School of Medicine
Level D (Small Lecture Theatre)
23 Mein Street, Newtown, Wellington
Registrations & Refreshments from 6.45pm
