**Dr Ahmad
Al-Hassiny**

Dr. Ahmad Al-Hassiny is
global leader in digital
dentistry and intraoral

scanners, carrying out lectures as a KOL for many companies and industry. He is one of the few in the world who owns and has tested all mainstream scanners and CAD/CAM systems in his clinic. Dr. Ahmad is also the Director of The Institute of Digital Dentistry (iDD), a world-leading digital dentistry education provider globally recognized in the digital dentistry space. iDD offers live courses, masterclasses, and an online training platform, with a mission to ensure dentists globally have easy and affordable access to the best digital dentistry training possible. Dr Ahmad graduated from the University of Otago with First Class Honours. He has carried out many aspects of complex digital dentistry, including CAD/CAM full mouth rehabilitation and digital smile design, all done in-house. He has seen first-hand through his work how CAD/CAM and digital dentistry can positively change daily dental practice.

2 HOURS VERIFIABLE CPD CREDITS

NZDA verifies, that based on the information provided to NZDA, this activity meets the Dental Council policy requirements for CPD.

Due to recent New Zealand Government policy announcements, we would like to advise you that once New Zealand enters the COVID-19 Protection Framework system (otherwise known as the traffic light system) we will be requiring all guests aged 12 and over to produce their vaccine pass at all NZACD events.

NZACD Members complimentary

Non-Members - \$75 including gst
discounted to **\$55** if payment received
prior to lecture date.

PRESENTER:

DR AHMAD AL-HASSINY

TOPIC:

Making the Transition to Digital Dentistry – How, Why and What to Buy!

Lecture Synopsis

This lecture will be a complete digital dentistry overview - from scanning to 3D printing and milling. We will go over all the intricacies of digital dentistry and the critical things you should consider when making the leap into scanning and digital workflows. Digital dentistry is no longer a niche or considered a fad. This is where most dental companies are shifting their focus and pouring millions of dollars into research, development, and new materials. Anyone who thinks they will still be practicing dentistry for the next 5 to 10 years or more needs to get out of their comfort zone and invest. Don't fall behind. It's the inevitable future of the profession. This brand-agnostic lecture will guide you to take the next steps - whether you haven't invested in a scanner or already have and are thinking about 3D printing/milling.

Learning Synopsys

1. Understand how to transition from an analog practice to digital dentistry successfully
2. Learn about all intraoral scanners and which ones are actually devices you should consider purchasing
3. Cut through all the marketing and learn how to pick a scanner for your practice - for the best possible price
4. Learn about CAD software, 3D Printing, and Milling

All attendees must rsvp (for catering purposes) by Friday 20th May 2022 to admin@nzacd.co.nz or telephone 09 358 4647

No refund will be made for cancellations received less than 7 working days of the event. No refunds for "no-shows"
